Transitional Provisions – 6% or 8% Service Tax

Recently, the Royal Malaysian Customs Department [“RMCD”] has issued a *draft guide providing guidance on the transitional issues due to the proposed change of the service tax rate from 6% to 8% effective 1st March 2024*. However, the new rate of 8% will not be applicable to the following four (4) special categories in which the old rate of 6% shall continue to be applied on these essential services:-

- Group B : Food and beverage;
- Group I : Telecommunication services;
- Group I : Vehicle parking space services; and
- Group J : Logistics services

Although the draft guide, which is accessible via the RMCD’s website (<https://mysst.customs.gov.my/>), may still be subject to changes upon finalisation, we would like to share with you some of the pertinent points extracted from the draft guide with regards to the application of 6% or 8% service tax during this transitional period in respect of the taxable services other than the special categories as mentioned above.

A. Provision of Local Services

To determine whether the service tax rate of 6% or 8% shall apply, one has to be mindful of when the services are rendered.

- If the services are rendered before 1st March 2024, 6% service tax shall apply (even if the invoice is issued after 1st March 2024). In this case, the issuer of the invoice (i.e. the service provider) must provide documentary evidence to support the actual date or period of rendering the services in the event of a service tax audit by RMCD.
- If the services are rendered on or after 1st March 2024, 8% service tax shall apply, save and except for the situation where the payment for such services has been received before 1st March 2024. In this case, 6% will continue to be levied on the payment received for the services rendered after 1st March 2024. However, in the absence of such payment, the services rendered on or after 1st March 2024 will be liable to the service tax of 8% and if an invoice has been issued with 6%, a debit note of 2% shall be issued to rectify the service tax rate.
- You may refer to the following table (*Jadual 7*) extracted from the draft guide dated 7th February 2024 (which is only available in our national language):-

	Sebelum 1.3.2024			Pada/selepas 1.3.2024			Kadar CP dikenakan

B. Acquisition of Overseas Services (i.e. Imported Taxable Services)

To determine whether the service tax rate of 6% or 8% shall be accounted for by the recipient of the services, one has to take note of the following:-

- If either the date of payment made or the date of invoice received falls before 1st March 2024, 6% service tax shall be accounted for by the recipient of the imported taxable services.
- If both the date of payment made and the date of invoice received fall on or after 1st March 2024, the recipient of the imported taxable services shall account for the service tax based on the new rate of 8%, unless the services are acquired by the recipient before 1st March 2024, then 6% will continue to be accounted for on such services acquired before 1st March 2024.
- You may refer to the following table (*Jadual 9 and Jadual 12*) extracted from the draft guide:-
